

Notification to Fishermen

Nord Stream 2 Project

31.03.2020

1. Purpose of this notification

Nord Stream 2 AG hereby submits a notification for the activities to be performed for the Nord Stream 2 Project in April 2020.

In April, rock placement is the only project activity to take place along the pipeline route in Swedish and Finnish waters.

Nord Stream 2 AG reminds that the construction vessels have limited manoeuvrability while performing their work, and that safety exclusion zones are therefore established around the vessels carrying out the Nord Stream 2 activities.

2. Planned Vessels

Rock placement along the pipeline route in Finland and Sweden

Rockpiper – Call sign: 5BML3 (planned in Finland but could be used in Sweden as well)

Bravenes – Call sign: PDCF (mainly in Sweden but could be used in Finland in late April)

3. Duration and locations of activities

In April, **rock placement** will be the only Nord Stream 2 construction activity. *Rockpiper* and *Bravenes* are planned to be deployed in Finland and Sweden. Rock is planned to be loaded in Inkoo in Finland.

The maps below illustrate the planned April activities. Please note that these details are subject to change for operational reasons.

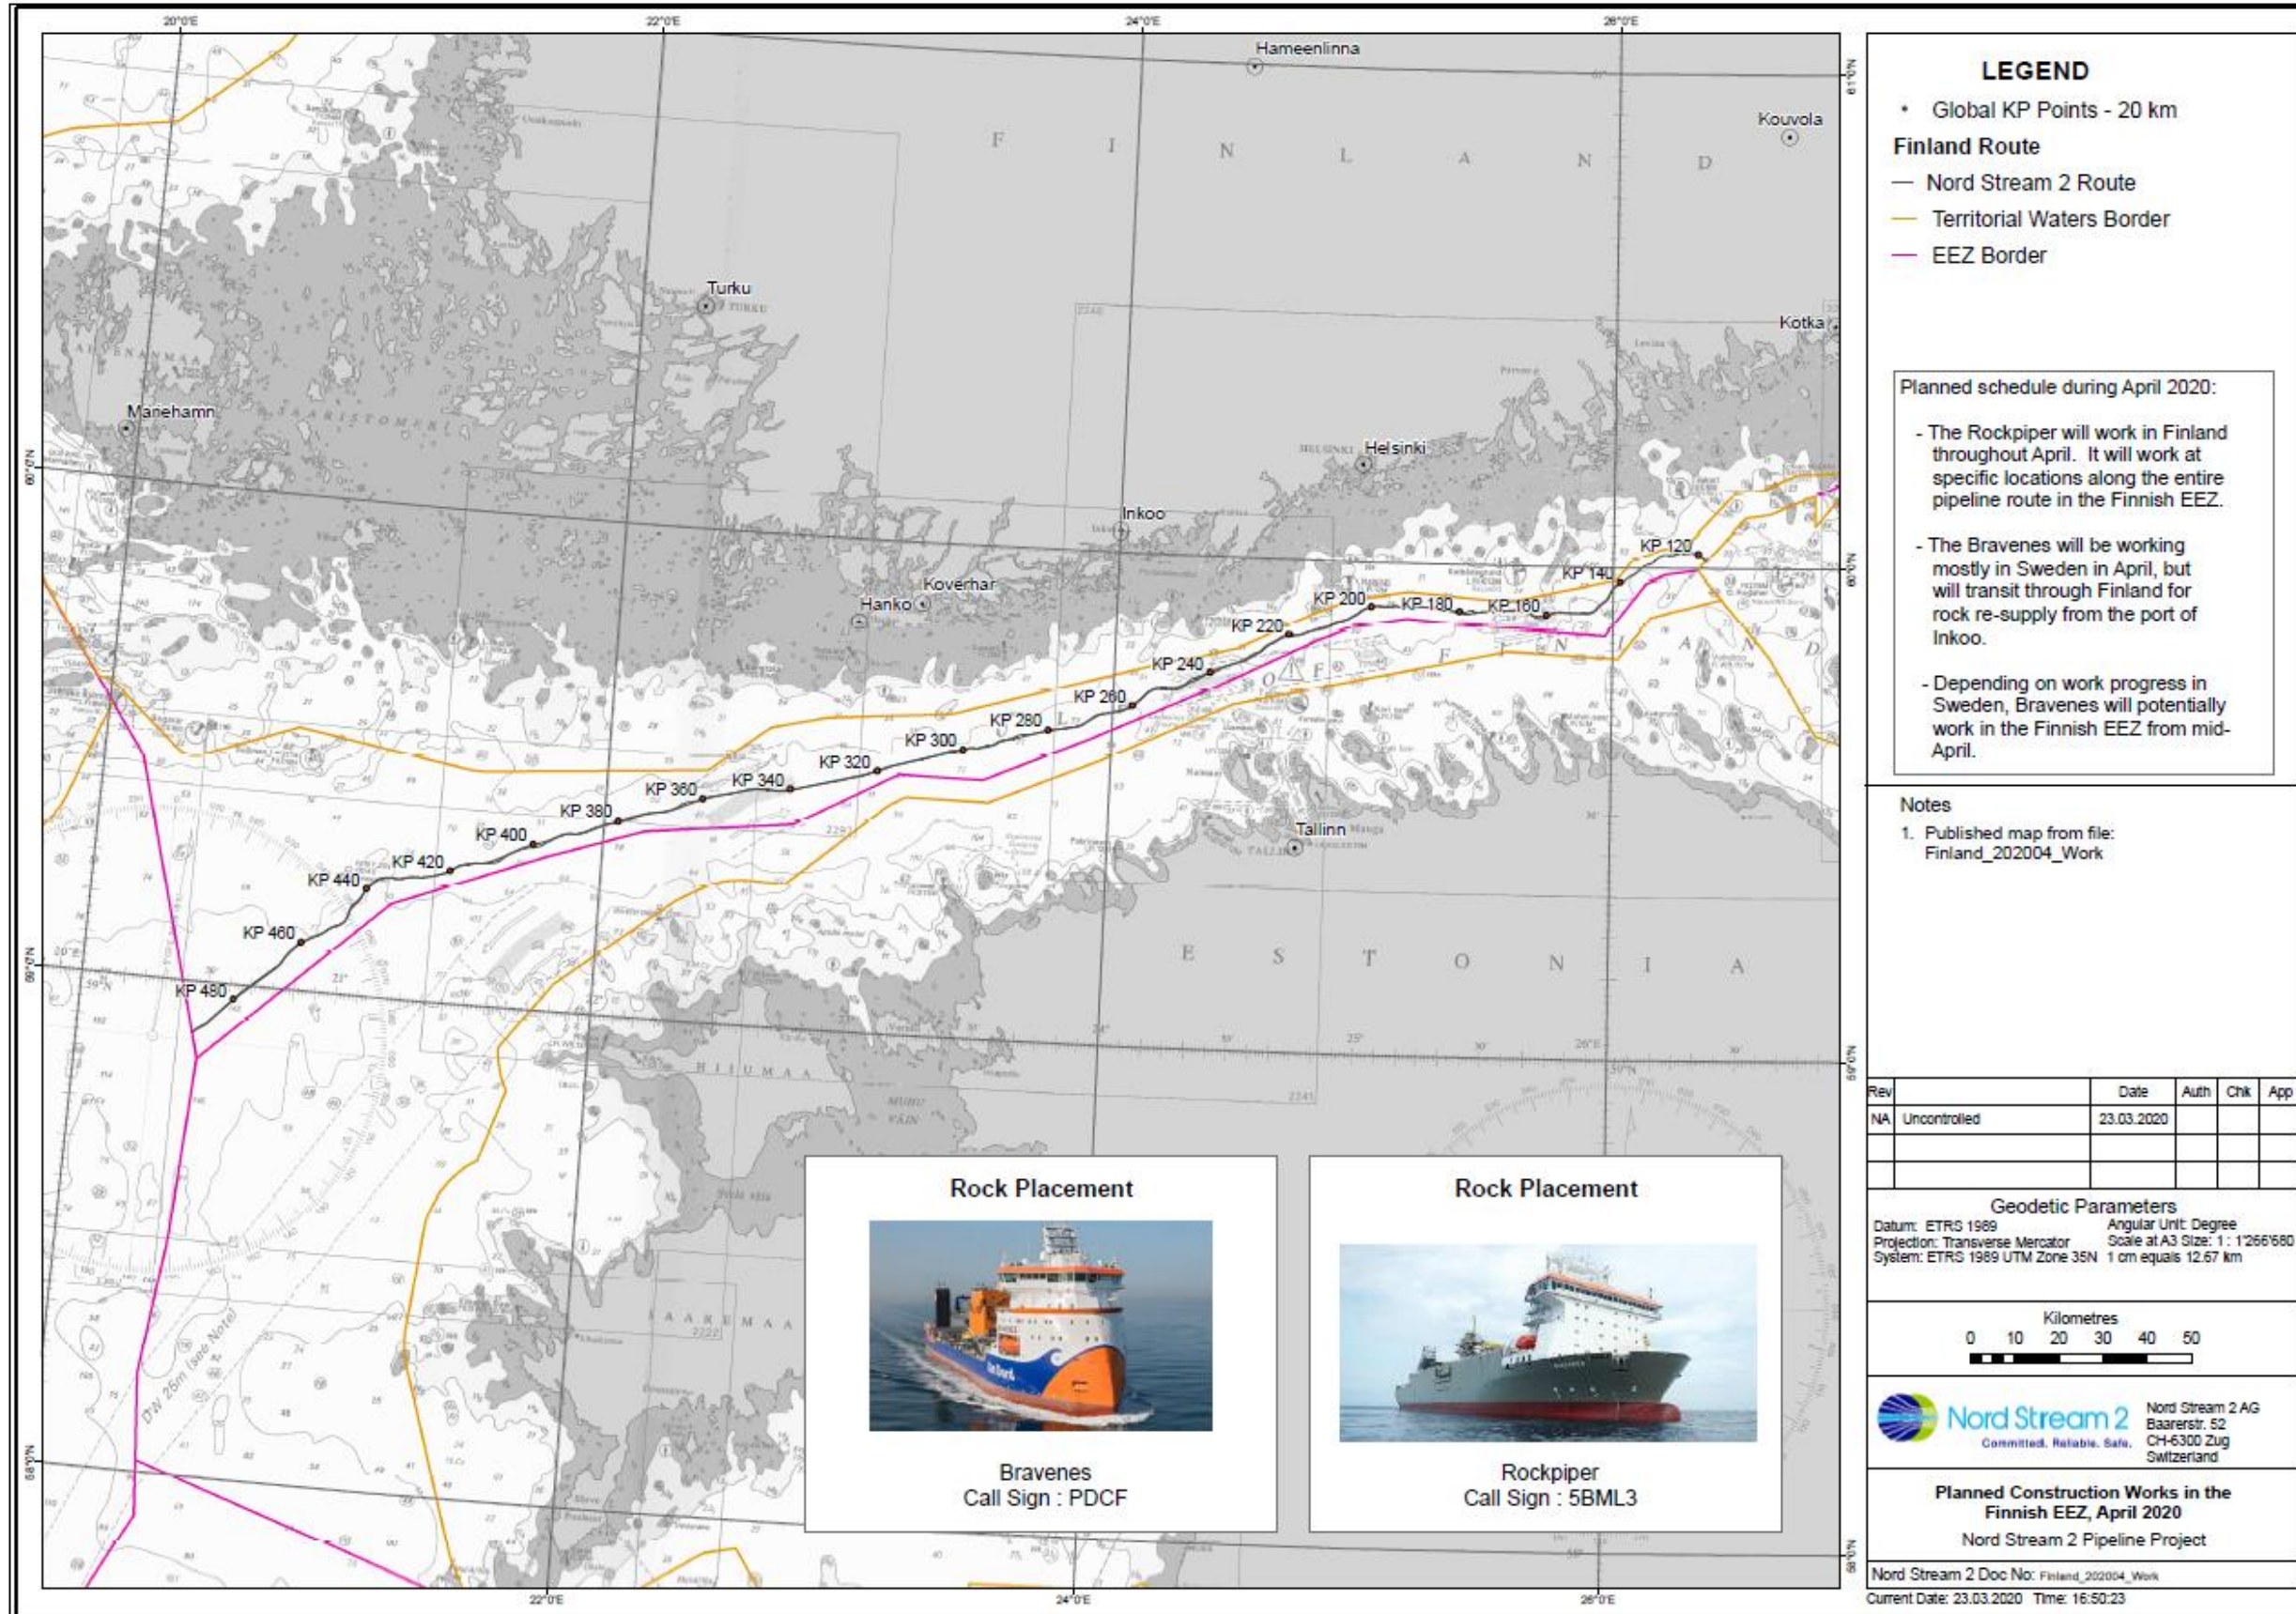

Figure 1: Nord Stream 2 rock placement activities in April in the Finnish EEZ.

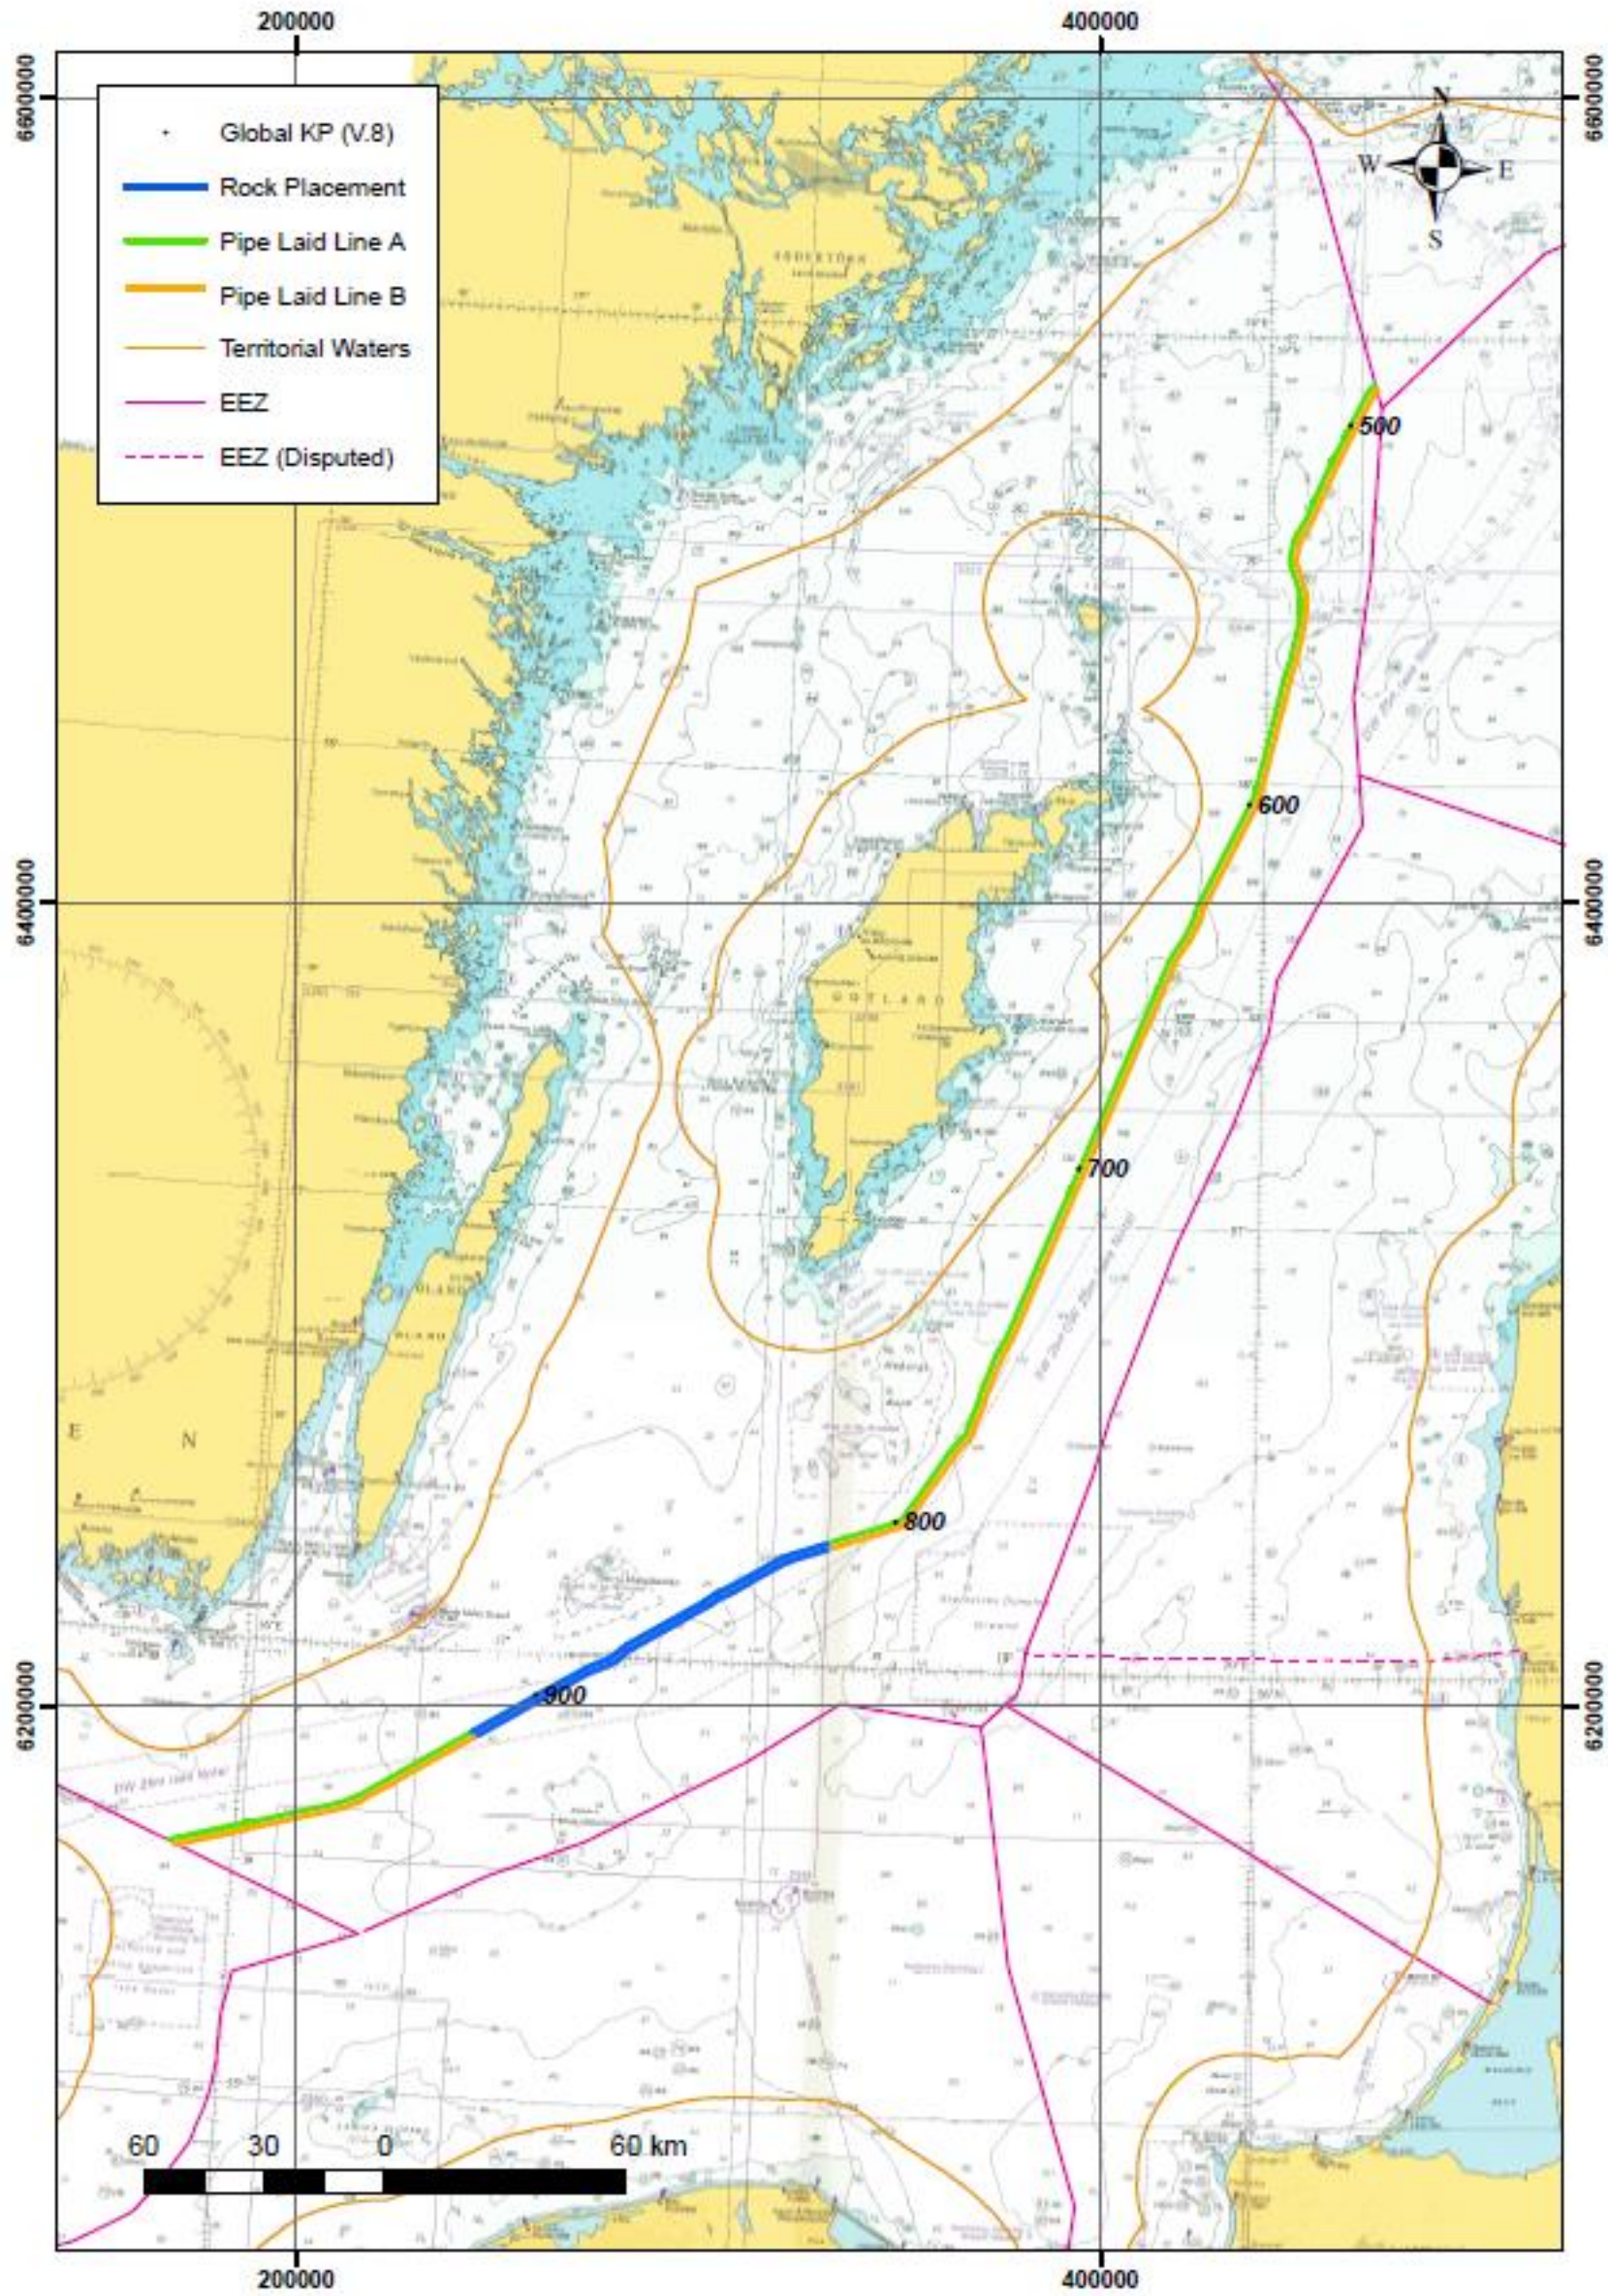

Figure 2: Nord Stream 2 rock placement activities in April in the Swedish EEZ

4. Exclusion Zones

Nord Stream 2 AG would like to highlight that a safety zone of 500 meters is established around the vessels performing rock placement activities for Nord Stream 2 Project.

Information about the works to be performed in the upcoming weeks, can also be found on the Notices to Mariners web-pages, available at:
